Beyond oil — the Emirates positions itself as global hub.

The UAE’s economy is becoming mature and resilient outside the oil sector.

— YOSHIHIKO KAMO,
Consul General to the UAE.

The UAE reports from its special correspondent.

The UAE is a major player in the global economy, not just in oil and gas, but also in aerospace, defense, technology, and other sectors.

The UAE’s economy is being diversified through the development of its infrastructure, education, tourism, and renewable energy sectors.

The UAE has invested heavily in its infrastructure, with projects such as the World Expo 2020 Dubai, which will showcase the country’s progress in sustainability and innovation.

The UAE’s economy is also benefitting from its strategic location at the crossroads of three continents, which is helping to attract foreign investment.

The UAE is also investing in education and research, with the establishment of world-class universities and research centers.

The UAE’s government is committed to attracting foreign investment and creating a business-friendly environment.

The UAE is also investing in renewable energy, with plans to achieve a 40% share of renewable energy in its energy mix by 2050.

The UAE’s economy is also being diversified through the development of its tourism sector, with plans to attract more tourists and create jobs.

The UAE’s economy is also being diversified through the development of its technology sector, with plans to create a world-class technology hub.

The UAE’s economy is also being diversified through the development of its aerospace sector, with plans to launch space missions and establish a Space Agency.

The UAE’s economy is also being diversified through the development of its defense sector, with plans to become a regional leader in defense technology.

A huge territory — united by an appreciation of music

The UAE Business Report

A new territory covering 122 countries in Africa, the Commonwealth of Independent States, the Gulf Cooperation Council (GCC), the Middle East and the Indian Ocean, Yamaha Music Group (EMM) represents a flagship feature of musical instruments, Yamaha Corporations. Through its offices in the UAE, we are responsible for a territory with a population of 17 million people — the largest in our region," says Yasuaki Gyoten, managing director of YMGC. "This geography is a goldmine for us. It is a place where cultural exchange is taking place, so the UAE is one of our major channels of growth in our region."

YMGC enjoys a leadership position in the GCC. In two single largest markets are Saudi Arabia and the UAE. "Our business in the UAE this year has been especially good for us. We have seen steady increases in sales and the trend is likely to continue," says Gyoten. "The tour has been increasing steadily in the UAE for the past months, and they represent our cornerstone here."

This company offers professional and commercial audio equipment, audio-visual products and full range of Yamaha musical instruments. Including the PSR-A2000, which is a professional mark-up model specifically designed for service-oriented Yamaha offers a variety of internal musical instruments and the full range of Yamaha musical instruments, including the PSR-A2000, which is a professional mark-up model specifically designed for service-oriented. It offers a variety of internal musical instruments and the full range of Yamaha musical instruments, including the PSR-A2000, which is a professional mark-up model specifically designed for service-oriented.

The sales of this model are essentially the growth of the business. Music education is equally important as it plays a key role in the future generation of music fans and music lovers. Through Tourism, YMGC's local distributor for over two decades.

Empowering future generations through education

The petroleum industry has played an important role in the UAE's industrial development. Fortunately for us, the Gulf Cooperation Council has come into being in recent years, Galadari has dedicated itself to being a "marketing, distribution, and sales company," says Soliman. "Our relationship with Mazda is another success story for us, and we say that with pride. In our company, "They are a genuine partner of ours, and we have worked with them in all parts of the business."
