So Good to Be Home
Indiana is home to Asia’s first manufacturing plant in North America. Nearly 30 years ago, AsiaInnovations Group has called Indiana home for nearly 30 years, and we are proud to be a part of the local business community.

ASIN GROUP’S HOME COURT ADVANTAGE
As an innovative automotive supplier, AsiaInnovations Group, or ASIN Group, has called Indiana home for nearly 30 years, and we are proud to be a part of the local business community.

As the U.S. market for electric and hybrid vehicles grows, ASIN Group is looking to expand its footprint in Indiana and is considering additional sites for new production facilities.

ASIN Group is one of the largest automotive suppliers in the world, with operations concentrated in Japan and the United States. The company has a history of successful partnerships with automakers in both countries and is well positioned to capitalize on the growing demand for electric and hybrid vehicle components.

In addition to its manufacturing facilities, ASIN Group also has facilities in several other countries, including China, Germany, and Mexico.

ASIN Group’s success in the U.S. market is a result of its focus on innovation and quality. The company has invested heavily in research and development to stay ahead of the curve in a rapidly changing industry.

ASIN Group is committed to producing high-quality parts and components for its customers, and it is proud to be a part of the Indiana economy. The company has a long-term focus on sustainability and is dedicated to reducing its environmental impact.

In summary, ASIN Group is well positioned to continue its success in the U.S. market and is committed to producing high-quality parts and components for its customers. The company is proud to be a part of the Indiana economy and is committed to long-term growth and sustainability.
