Historical anniversary signals long standing friendship

A message from the Prime Minister of Hungary Viktor Orbán on the Hungarian-Japanese Memorial Year

In 2019, Hungary and Japan will be celebrating 150 years of diplomatic relations. We not only cherish our transactions of the past centuries, but we also value our future co-operation closely – not only in the fields of culture and the economy, but also in terms of security and defence. That is why we decided to pay tribute to our close historical ties.

In Hungary, Daikin focuses on developing and manufacturing air-conditioning solutions for industrial clients and the company has 14 European production sites. The company is on a mission to expand the company’s business development and miniaturize its technology, and today we export vehicles, cars, motorcycles, and nine marine dealerships and six marine dealerships to customers in the EU. We have been No. 1 in new marine dealer operations since 2012 and now we can offer our clients a new marine dealership in Hungary. We are implementing innovative solutions to help our customers to expand their businesses across the region. The Workplace Hub concept, which is the core of our cooperation with Daikin, has been introduced in 2015. The Workplace Hub concept enables Daikin to introduce innovative products and services to the customers in the region to deliver the highest standard of service to our customers across Hungary.

Today, the 9,200 square-meter Workplace Hub concept in Hungary has been extended to include new customer benefits, which will strengthen our business relationship with Daikin. The Workplace Hub concept is the core of our cooperation with Daikin, and it has been implemented in 2015. The Workplace Hub concept enables Daikin to introduce innovative products and services to the customers in the region to deliver the highest standard of service to our customers across Hungary.

The firm is optimistic about the prospects of increased Japanese investments into Hungary.

Hungary

Hungary in Hungary — Nissin Foods is an instant success

As the inventor of the original Cup Noodles, Nissin Foods, a leading global Tobacco Company with operations in 200 countries and regions worldwide, has been noted for delivering quality products to the Hungarian market and contributing to the development of the local society.

Three years since the initial investment, Nissin Foods has successfully expanded its operations in Hungary and across Europe, and continues to develop its presence in the market.

The company’s Hungarian operation started in 2015, and since then, it has been steadily growing and adding new products to its portfolio. In 2018, Nissin Foods launched its first instant noodle product in Hungary, which has since become a hit among local consumers.

Today, Nissin Foods continues to invest in its operations in Hungary, and its success is a testament to its commitment to delivering high-quality products to the Hungarian market.

Contributing to the sustainable development of Hungarian society

JTI Hungary is a leading global tobacco company that is committed to contributing to the sustainable development of Hungary.
