As the global economy reopens, many emerging economies in countries that were hit hard by the pandemic have been showcasing their recovery story. In the U.S., the state of Texas is particularly attractive for Japanese companies looking to invest in new frontiers because of its extensive connections with Japan and well-established and sophisticated business environment.

Ms. Shinya Kitagawa
President of Kitagawa & Ebert

Growing a Base in the Lone Star State

Texas is a state that strikes the right balance of industry, culture, and quality of life. The Texas economy is the fourth-largest in the nation, and the state is home to some of the largest companies in the U.S. Texas is also known for its diverse and rapidly growing technology sector, which is a major draw for Japanese companies. In fact, many Japanese companies have already set up shop in Texas, and many more are considering doing so.

“I am very pleased to provide our readers with this opportunity to learn more about the business environment in Texas and how Japanese companies are and can benefit from the opportunities it offers. Texas is a state that is truly open for business and is eager to welcome more international companies to its shores,” said Ms. Kitagawa.

One of the most prominent Japanese companies in Texas is Kitagawa & Ebert, which has been operating in the state since 1956. The company is a leader in the field of machine tools and has established a strong presence in the Texas market. Kitagawa & Ebert provides a wide range of products and services to its customers, including machine tools, automation systems, and related services.

The company has been instrumental in helping to establish a strong network of Japanese partners in Texas, and has helped to promote the state as a hub for Japanese businesses.

“I am delighted to have the opportunity to introduce Kitagawa & Ebert to our readers. The company has a long history of success in Texas, and I am confident that it will continue to be a leader in the state’s business community for many years to come,” said Ms. Kitagawa.

Texas is a state that is truly open for business and is eager to welcome more international companies to its shores. Kitagawa & Ebert is just one of many Japanese companies that are already taking advantage of the state’s business opportunities.

CITY OF RICHARDSON: HIGH-TECH HUB IN TEXAS

The city of Richardson is among 21 communities that have entered into a partnership with the state of Texas and the Texas Economic Development Partnership to attract more than 200 companies and create over 20,000 jobs since 2018. The partnership is a joint effort between the Richardson Economic Development Partnership and its state and local partners.

Richardson hosts more than 550 companies engaged in advanced manufacturing and technology development. Since the 1990s, Japanese companies have set up operations in the area, entered by the converse of "Innovate Asia." Richardson is home to some of the world’s leading technology companies, including_Honda America, Toshiba, and Panasonic.

McAllen has diverse business partners across the world, including companies in Latin America, Mexico, Taiwan, Saudi Arabia, Canada, and Australia. The DCDD continues to promote itself to international markets as an ideal location for business and revenue growth.

The city of Richardson serves as a bridge between Japan and the United States, helping to foster stronger relationships and partnerships. For more information, visit: www.abileneeconomicdev.com

The City of Richardson is a leading technology hub in Texas, with numerous companies engaged in advanced manufacturing and technology development. Richardson recently signed an agreement with the Japanese conglomerate Nippon Telegraph and Telephone (NTT) to develop a 5G smart city project.

The project, known as the Richardson 5G Smart City Initiative, aims to transform the city into a living laboratory for 5G technology and to test new applications for the technology in a real-world setting. The initiative is a joint effort between the City of Richardson, NTT, and the state of Texas.
