Japan and Vietnam at 50

E nabled in Japan in 1966, Yamaha Motor Vietnam is Japan’s largest full-service international law firm, with more than 800 professionals throughout the world (including associate and alliance offices).

Nishimura & Asahi’s foundation is to realize an efficient and fair society based on the rule of law. We actively contribute to the growth of our clients by finding the best solutions and ways to achieve their purposes under a rapidly changing environment, and we are committed to the sustainable development of our wider community.

Japan and Vietnam are two countries that are fine-tuned for maximum comfort. Each room contains a seductive Wink warehousing. The brand name originates from Core5 Industrial Partners, a leading-class industrial brand from the U.S. owned by Kajima. In Vietnam, Core5’s Vietnam’s industrial property development portfolio covers over 80 hectares of land, including seven prime projects in northern Vietnam and one in southern Vietnam.

VIETNAM

Indochina Kajima: An innovative approach to real estate development

E nabled in 2016, Indochina Kajima is a joint venture between Indochina Capital, one of Vietnam’s leading real estate development companies, and Kajima Corp., one of Japan’s largest construction and infrastructure companies. Indochina Kajima aims to contribute to Vietnam’s sustainable economic growth and regional expansion. Since 2016, Indochina Kajima has focused on the rollout of two major platforms, Wink Hotel and Core5 Vietnam.

Wink Hotel is a Vietnamese hospitality brand that seeks a bold, playful approach to affordable luxury. The brand offers modern, imaginative rooms and reflects a unique combination of traditional Vietnamese style with modern forward-thinking originality.

Transfers will find spa-like, colorful rooms that are four-star rated for maximum comfort. Each room contains a seductive Wink_marine, high-quality linens and pillows, shower shows, a smart TV that connects wirelessly with mobile devices, and an artistic Black-out blind featuring a drawing by a local Vietnamese artist.

The village will promote engagement through social media, as well as in the United States.

Japan and Vietnam will continue to strengthen and further develop relations, especially in the areas of economic cooperation such as investment, cross-border transactions and DSU digital transformation.” — Kunishige Hiromoto, secretary general, Indochina-Kajima Capital.

Yamaha Motor Vietnam ‘Revs Your Heart’ through high-value products and services

Japan and Vietnam continue to be satisfied with the level of quality, value and service. Yamaha Motor Vietnam is employed to better serve customers and will strengthen its relationship with Yamaha through its various dealers and the establishment of new collaborative facilities. In doing so, Yamaha Motor Vietnam marks 24 years of the relationship between Yamaha and Vietnam.

Congratulations are in order. This year, Yamaha enjoys the second consecutive year as the most popular electric scooter, representing its third consecutive year as the most popular electric scooter.

The year has not only marked the 50th consecutive year of automotive cooperation between Vietnam and Yamaha Motor Vietnam.

To thank Vietnamese government, society, culture, milieu, and Yamaha Motor Vietnam’s success, the company continues to build on this well-established win-win relationship.

The company aims to continue the rollout of innovative, design-driven and sustainable developments in the hospitality and industrial sectors.

Yamaha Motor Vietnam continues to focus on three core values: leadership, engagement through social media, and its strong dealer network.

The strategy is to protect the environment and increase the use of renewable energy through the development of new products, such as the Neo, an electric scooter, representative of third core value of being environment-friendly. Yamaha is making every effort to create eco-friendly products and services.

Japan and Vietnam are two countries that are fine-tuned for maximum comfort. Each room contains a seductive Wink warehousing. The brand name originates from Core5 Industrial Partners, a leading-class industrial brand from the U.S. owned by Kajima. In Vietnam, Core5’s Vietnam’s industrial property development portfolio covers over 80 hectares of land, including seven prime projects in northern Vietnam and one in southern Vietnam.

Rider concluded: “Core5 Vietnam’s projects are more than an industrial park, but instead a ‘lifestyle village.’ The village will promote environmental sustainability, community health and people engagement, thus making it easier for tourists to access and maintain high-quality living conditions.
